English Proficiency Requirement:

It is recommended that students whose native language is other than English be enrolled in ESL 87 before enrolling in Chemistry Laboratory courses. Chemistry courses require good reading and writing skills. It is recommended that students be enrolled in or eligible for English 28 or higher before enrolling in any chemistry course.

CHEMISTRY 34—EPA METHODS FOR ENVIRONMENTAL ANALYSIS (CSU) - 4 UNITS

An introduction to sampling techniques and instrumental analysis of geological, water and atmospheric samples. This course will prepare the student to conduct the various EPA mandated laboratory analyses needed to assess environmental quality. This course is not designed for beginning chemistry students and does not serve to meet the chemistry prerequisite for nursing, other allied health fields or Chemistry 101.

It is strongly recommended that students have taken a prior chemistry course. Contact Professor Sheila Hammon at sheilahammon@yahoo.com for more information.

Prerequisite: Math 115 with a grade of 'C' or better, or equivalent skill level demonstrated through the mathematics placement process.
PROOF OF ELIGIBILITY MUST BE BROUGHT TO THE ASSESSMENT CENTER OR COUNSELING OFFICE.

Recommendation: Eligibility for English 28.

A basic introduction to the principles of chemistry with emphasis on those important for Nursing, Home Economics, Veterinary Technology, and Allied Health Sciences.

CHEMISTRY 101 READINESS TEST

It is recommended that all students planning to enroll in Chemistry 101 as their first chemistry course at Pierce College take the Chemistry 101 Readiness Test at the Assessment Center located in the Student Services Building. Contact the Assessment Center at (818) 719-6499 for an appointment and an information sheet. Prerequisite courses or placement results taken at other accredited colleges or universities must be presented to the Assessment Center to be substituted for the Pierce Chemistry 101 Readiness Test.

Results from the test are intended to assist students in enrolling in the class where they are most likely to succeed. Upon completing the test, students are advised of their placement and given their authorization to enroll. Students must pass the test within one year of when they register to enroll in Chemistry 101. A student who passes the test may take the exam more than once to maintain this recency requirement, but a student who fails may not repeat the test. Students who wish to challenge the recommendation of the readiness test should consult the Chemistry Department Advisor, Dr. Izzy Goodman, at (818) 719-6464 or goodmail@piercecollege.edu. The prerequisites for Chemistry 101

are not waived on the basis of any assessment test scores.

SEQUENCE OF ENGLISH COMPOSITION COURSES

The English department offers a sequence of classes designed to coincide with students' reading and writing ability on entering college.

ENGLISH 21

This English fundamentals course concentrates on improvement of writing skills, particularly sentences and paragraphs, and reviews the basics of punctuation, spelling and sentence structure.

ENGLISH 28

This is the course designed to assist the student to make a successful transition to English 101. It emphasizes grammar, sentence structure, paragraph and essay writing.

ENGLISH 101

This is the composition course required for students who plan to transfer to a four year college. It emphasizes expository reading and essay writing, research techniques and semantics. Students in English 101 are expected to write well-organized, grammatically correct compositions of 700 words and more.

ENGLISH PLACEMENT PROCESS

The results of the English Placement Process or a valid English Enrollment Authorization Form must be on file in order to enroll in English 21, 28, English 82, 84-87, or English 101, 102, 103.

All students planning to enroll in an English course for the first time are expected to complete the English Placement Process at the Pierce College Assessment Center (Student Services Building). Visit the Assessment Center website to make an appointment and obtain sample test information. Placement results or prerequisite courses taken at other colleges may be presented to the Assessment Center to be substituted for the Pierce English Placement Process.

Upon completing the process, students are advised of their placement and given an authorization to enroll in that course. Students seeking an explanation of their scores or authorization to enroll in a course other than that in which they have been placed must meet with an English Department advisor.

Students need to provide evidence of prerequisite completion either through coursework in the Los Angeles Community College District, by completing the Pierce College English Placement Process, or through transcripts from other schools presented at the Assessment Center.

THE WRITING LAB: VLGE 8310B

The Writing Lab, available to all enrolled Pierce College students, provides individualized one-on-one tutoring in writing by experienced instructors. Computer- assisted tutorials are also available in grammar, punctuation, and most areas of composition. Seen by appointment, students may schedule visits to receive this free assistance by phoning ext. 4370 or 2514. Walk-in tutoring is provided as availability allows.

STUDENTS WHO FAIL TO ATTEND THE FIRST CLASS MEETING MAY FORFEIT THEIR PLACE IN THE CLASS.

ENGLISH 21—ENGLISH FUNDAMENTALS (NDA) - 3 UNITS

Prerequisite: English 20 or English 87 with a grade of 'C' or better, or appropriate skill level demonstrated through the English Placement Process.

This is a fully online class. To obtain additional information about this class, please go to this website: <http://moodle.piercecollege.edu/course/> and click on the Environmental Science 32 link within the 'Fall 2012 Distance Education Courses' folder. This should be done prior to August 27, after which this class will be in session.

ENVIRONMENTAL SCIENCE 34—EPA METHODS FOR ENVIRONMENTAL ANALYSIS (CSU) - 4 UNITS

An introduction to sampling techniques and instrumental analysis of geological, water and atmospheric samples. This course will prepare the student to conduct the various EPA mandated laboratory analyses needed to assess environmental quality. This course is not designed for beginning chemistry students and does not serve to meet the chemistry prerequisite for nursing, other allied health fields or Chemistry 101.

It is strongly recommended that students have taken a prior chemistry course. Contact Professor Sheila Hammon at sheilahammon@yahoo.com for more information.

*Note: MATHEMATICS PLACEMENT PROCESS:

Students who have not completed a college mathematics course must complete the Mathematics Placement Process at the Pierce College Assessment Center located in the Student Services Building. Visit the Assessment Center website to make an appointment and obtain sample tests. Review is highly recommended.

Placement tests are given at four levels: Algebra Readiness, Elementary Algebra, Intermediate Algebra, and Precalculus. Upon completing the process, students are advised of their recommended placement and given an authorization to enroll in that course. Students who wish to challenge the recommendation of the assessment test should consult a Mathematics Department advisor.

Indicated prerequisites for mathematics courses are not waived on the basis of any assessment test scores.

**Note: Pierce prerequisite or the equivalent course at another accredited college or university.

Some sections require Internet access for homework.

Some sections require graphing calculators. A limited number of TI-83 and TI-84 calculators are available for rent from the department on a first-come, first-served basis.

Information regarding specific course needs may be found on the instructor's web page.

Media Arts Department Chair: Jill Connelly.

Phone: 710-4235. Office: Village 8100. E-mail: conneljp@piercecollege.edu

Faculty Advisor: Jill Connelly.

Students planning to enroll in any of the Photography classes need to provide their own Digital SLR camera. Whichever camera you choose must have manual control of aperture, shutter speed and focus.

All photo classes at Pierce have laboratory requirements in VLGE 8300. The lab will have day and evening hours on weekdays. The exact hours will be posted.

Questions? Please Email or call our photo staff: Jill Connelly (conneljp@piercecollege.edu) (818) 710-4235.

The classes listed below may require payment of \$5.00 for the cost of paper and ink supplies. Please check with you instructor to see if these instructional materials fees must be paid. After payment please provide a copy of the receipt of payment to your instructor.
