

1. Plug cord in outlet.
2. Turn on red button.

3. Turn on HP computer.
4. Or turn on VCR.

5. Turn on projector.
6. Choose correct source. HDMI2 for document camera or HDMI1 for computer or VCR and press enter on projector. Source may depend on wiring connection.

Volume Control box. Volume on PC must **not** be on mute.

7. For internet, Blue Ethernet cable should be plugged into wall. You will need WiFi password which is same as SIS or LACCD e-mail password.

Turning off: wait for projector to cool, then unplug.

Lumens Document Camera Features

Plug in and turn on cart and projector as in steps 1, 2, & 5 and choose correct source, 6 (HDMI 2). Turn on power on camera.

Document Camera can be placed on table.

Two white buttons on side of camera for auto focus. Document such as paper or book can be placed under camera.

Turn on Lamp

Power. Blue light is on. Red is off. For total shut down, turn of cart (#2).
