ASSOCIATE DEGREE – GENERAL EDUCATION REQUIREMENTS 2016-2017

General Education Requirements: Minimum of 21 semester units. *Note to Counselors:* When students have mixed records, for each general education area unit minimum, convert the units to either all semester or all quarter to the benefit of the student. 1 semester unit = 1.5 quarter units. If additional units are needed to meet the minimum unit requirement for an area, other courses that meet the area criteria may be applied.

Major Requirements: Minimum of 18 semester units in a single or related field. Effective for all students entering Fall 2009 or later, each course counted towards the major or area of emphasis requirement must be completed with a "C" (2.0 or equivalent) or better.

Please see a counselor and check the college catalog for specific major requirements.

Competency Met: Eng: Course _____ Math: Course _____ Test _____				

The Pierce Associate Degree has the Following Common Requirements (Title 5: 55063):

1. Unit Requirement:

A minimum of 60 semester units in degree applicable courses.

2. General Education Requirement:

For every major, you must complete a series of courses that make up the general education requirement of the degree. While a course might satisfy more than one general education requirement, it may not be counted more than once for these purposes. A course may be used to satisfy both a general education requirement and a major requirement.

3. Major Requirement:

In addition to the general education requirements, each degree requires a major. Effective for students admitted to a community college for the Fall 2009 term, or any term thereafter, each course counted toward the major requirement must be completed with a grade of "C" or better or a "P" if the course is taken on a "pass-no pass" basis. A course may be used to satisfy both a general education requirement and a major requirement.

4. Scholarship Requirement:

A minimum "C" (2.0) cumulative grade point average in all courses used toward the degree.

5. Residency Requirement:

A minimum of 12 semester units of the units used toward the degree must be completed in residence at Pierce College.

6. Competency Requirement: (LACCD E-79)

Mathematics Competency: The competency requirement in mathematics for the Associate Degree may be met by completion of one of the following:

1. Completion of Mathematics 125: Intermediate Algebra (or the equivalent from another college) with a grade of "C" or better or any higher-level mathematics course with a prerequisite of at least Mathematics 125 or the equivalent or Math 228B (Pierce Curriculum Committee 9/16/16).
OR
2. A passing score on the Los Angeles Community College District Intermediate Algebra Competency Examination
OR
3. A score of 3 or higher on one of the following Advanced Placement (AP) exams: Calculus AB, Calculus BC, Statistics
OR
4. Complete the Pierce College assessment exam in mathematics and achieve a score determined comparable to satisfactory completion of Math 125, Intermediate Algebra. That is, students who place into a mathematics course above the level of intermediate algebra have met the competency requirement.

Reading & Written Expression Competency: The competency requirement in reading and written expression for the Associate Degree may be met by completion of one of the following:

1. Completion of English 101 (or the equivalent from another college) with a grade of "C" or better
OR
2. A score of 3 or higher on one of the following Advanced Placement (AP) Exams: English Language and Composition, English Composition and Literature
OR
3. Completion of English 101 through credit-by-examination. Students must meet the eligibility requirements for credit-by-examination. Refer to Credit-by-Examination section of this catalog for details.

Transfer Students

Completing the Associate Degree does not necessarily meet the university-admission requirements for transfer. An Associate Degree is not a requirement for transfer to either the CSU or UC campuses. Private and out-of-state colleges and universities have unique transfer requirements. However, if you would like to transfer to a university and earn an associate degree, early educational planning can make this goal achievable. You should meet with a counselor early in your studies to develop an Educational Plan that fulfills both transfer requirements and associate degree requirements.

Procedure for requesting the degree:

You must file a petition for the degree in the Graduation Office. Please check the Schedule of Classes for deadlines. If you have completed coursework at other schools that you believe meets some of your degree requirements, you may petition for course substitution with a Pierce counselor.
