Pierce College Policy on Prerequisites, Corequisites, Recommended Preparation, and Limitations on Enrollment

The faculty has identified knowledge and skills that are necessary for success in certain classes. At registration, students need to determine if any courses require previous knowledge. The catalog and schedule of classes use four terms to show if such knowledge is required:

PREREQUISITE: means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program (i.e., a course that must be passed with a grade of "C" or better, or a requirement that must be met before enrolling in a given course). Students will not be permitted to enroll in such courses and programs without the appropriate prerequisite.

COREQUISITE: is a condition of enrollment consisting of a course that a student is required to take simultaneously in order to enroll in another course (i.e., a course that must be taken at the same time as another course.)

ADVISORY: means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program (i.e., preparation that is helpful, but not required, before enrolling in a given course).

LIMITATIONS ON ENROLLMENT: a prerequisite necessary to protect a student's health and safety and the health and safety of others. (See prerequisite). Limitations on enrollment may also apply to certain courses (e.g., performance, honors, and special programs) if comparable courses are provided.

Prerequisite Challenge Procedures

A student may challenge a prerequisite or corequisite by filing a prerequisite challenge form. The reasons for seeking a challenge may include one or more of the following:

1. A prerequisite is not reasonably available;
2. The student believes the prerequisite is not valid or necessary for the success in the course for which it is required;
3. The student believes the prerequisite is discriminatory or being applied in a discriminatory manner, or
4. The student has the documented knowledge or ability to succeed in the course without meeting the prerequisite.
5. The student believes it to be unfounded that he or she might cause a health or safety hazard.

The steps for filing a challenge are outlined below:

1. Obtain and complete a challenge form accompanied by all necessary documentation, from the Assessment Office (Student Services Building) or download from their website.
2. Return the completed form with documentation to the Assessment Office. A prerequisite challenge requires written documentation (e.g. proof of alternative course work, explanation of background or abilities which adequately prepare the student for the course, etc.) before it can be processed.
3. Return to the Assessment Office five (5) working days after filing a challenge for an answer.

Students with questions regarding filing a prerequisite challenge may contact the Assessment Office in the Student Services Building or call (818) 719-6499 for information or appeal procedures to the challenge process outlined above.

Changes to Priority Registration Effective Fall 2014

The California Community Colleges Board of Governors approved changes that will establish system-wide priorities designed to ensure classes are available for students seeking job training, degree attainment or transfer and to reward students who make progress towards their educational goals.

New students who have completed college orientation, assessment and developed education plans as well as continuing students in good academic standing who have not exceeded 100 units (not including units in basic English, Math or English as a Second Language) will now have priority over students who do not meet these criteria.

Active duty military and veterans, current and former foster youth, followed by students in Extended Opportunity Programs and Services, Disabled Students Programs and Services and Cal WORKS will continue to have first priority for registration if they meet the same criteria listed above.

The regulations, unanimously approved by the board of governors, will be implemented in the Fall of 2014. We encourage students on probation to seek assistance from counseling services to improve their academic standing. Students nearing 100 units should carefully plan their remaining courses.

Tax Credit Available to Students

In accordance with federal tax credit legislation, Pierce College will mail a verification 1098T form the end of January to each student registered at least half-time on census day and who has paid registration fees. Please check with your tax preparer to determine if you are eligible to take advantage of this credit and the amount you may deduct. If you are entitled to this deduction, it is important that the college have your current address. If you have moved, you need to complete a Change of Information form with the Office of Admissions and Records. The social security numbers of students who have chosen an assigned identification number will not be printed on the 1098T. If you wish to add your social security number you may do this by completing a W-9, Request for Taxpayer Identification Number and Certification form with the Business Office.

Financial Aid

The purpose of student financial aid program is to provide financial assistance to students who, without such aid, would be unable to attend college. Although it is expected that students and parents will make a maximum effort to meet the cost of education, financial aid is available to fill the gap between family resources and the annual educational expenses. Financial aid is meant to supplement the family's existing income/financial resources and should not be depended upon as the sole means of income to support other non-educational expenses.

Financial aid is available from various sources such as federal, state, institutional, community organizations and individual donors. Financial aid can be awarded in the form of grants, loans, work-study, scholarships, or a combination of these.

The first step in the application process is submitting the Free Application for Federal Student Aid (FAFSA) on-line at www.fafsa.gov. In addition to the FAFSA, students may have to provide additional information to the Financial Aid Office. Additional information about the financial aid application process and availability of financial aid programs may be obtained in the Financial Aid Office or by visiting our website at www.piercecollege.edu/offices/financial_aid

Please follow the deadlines below:

- January 1, 2013—
FAFSA application available on-line at www.fafsa.gov
- March 2, 2013—
Cal grant deadline and application priority deadline for limited funded programs
- April 1, 2013 —
Established priority funding deadline for limited funded financial aid programs
- May 1, 2013 —
Established priority deadline to submit required documents to the Financial Aid Office
- Sept. 2, 2013 —
Extended competitive Cal grant deadline for community college students

Eligibility

To be considered for financial aid, students must meet the following minimum requirements:

- Be a U.S. citizen or an eligible non-citizen. An eligible non-citizen is a U.S. permanent resident who has documentation from the Department of Homeland Security verifying that his/her stay in the U.S. is for other than a temporary purpose.
- Have a valid social security number (SSN)

- Demonstrate financial need.
- Be enrolled as a regular student in an eligible program.
- Be making satisfactory academic progress in a course of study leading to a Certificate, AA or AS Degree, or Transfer Program.
- Not be in default on any student loan such as Federal Perkins Loans, Federal Stafford Loans (subsidized and unsubsidized), Federal Direct Loans (subsidized or unsubsidized), or Supplemental Loans to Assist Students (SLS) at any college attended.
- Not owe a refund on a Federal Pell grant, Federal Supplemental Educational Opportunity Grant (FSEOG) or Academic Competitiveness Grant (ACG) or SMART Grant.
- Be registered with Selective Service if you are male between age 18 and 26.
- Must have a high school diploma or its equivalent or passed the General Educational Development (GED).

Awards

The amount of financial aid offered to students is determined by the difference between their educational expenses and the financial contribution their families can make toward these expenses, which is referred to as "financial need". Once financial need is determined, an Aid Offer is assembled consisting one of more of the following types of financial aid programs:

1. GRANTS – A grant is a form of financial aid that typically does not have to be paid back. It is the best type of aid you can receive. Apply as early as possible since some grant funds are limited. The following are various types of grants:
 - a. Federal PELL grant
 - b. Federal Supplemental Educational Opportunity grant
 - c. Cal grant B or C
 - d. Chafee Grant
2. WORK-STUDY – This program enables students to earn a portion of their financial aid award through part-time employment either on or off campus.
3. FEE WAIVER – this program is a state funded program that waives the enrollment fees to California residents who meet the income and eligibility requirements.

4. **STUDENT LOANS** – Federal student loan is a financial aid program available to students who demonstrate financial need while attending college at least half-time (6 or more approved units). Student loans must be repaid.
5. **SCHOLARSHIPS** – There are numerous local and national scholarship opportunities available in the form of free money.

Consequences of withdrawing

Students who receive financial aid and then withdraw from all or part of their classes may have to repay all or some of the financial aid funds received. Please note that withdrawing from classes may affect the satisfactory academic progress for future financial aid eligibility.

Students who received federal financial aid and withdrew from all classes in the first 60% of the semester are subject to Return to Title IV Regulation. The Financial Aid Office is required to calculate the amount of federal funds earned by the

student up to the point of withdrawal and students will be billed and must repay any federal funds received but not earned.

If the student owes a repayment of federal and/or state financial aid funds due to withdrawal of a class or Return to Title Iv regulation, a hold will be placed on the student's academic record until the debt is repaid. A hold on the academic record will mean a student will not be able to register for classes for a subsequent semester, obtain a copy of their academic transcripts and receive other college services. Nonpayment of the unearned amount will be reported to the United States Department of Education for collection. The college is also required to report grant overpayments to the National Student Loan Database System (NSLDS) which will result in the denial of future financial aid at all colleges and universities.

If a student is considering withdrawing from classes, please contact the Financial Aid Office first. We may be able to provide you advice that will help avoid a repayment.

Students may petition to add more units during the week before the semester starts and the first two weeks of the semester. A 3.0 GPA in 12 college units is required.

- Many courses listed in the Schedule of Classes have prerequisites. These are requirements that are necessary for enrollment and successful completion of the courses. Proof of having met the prerequisite must be established prior to registration.
- Students remain financially responsible for the enrollment fee and tuition charges unless they drop by the refund deadline.
- Students who fail to attend the first class meeting may forfeit their place in the class.
- Please read the Pierce College schedule and catalog online carefully. It is your responsibility to be aware of the College's rules and regulations.

English Placement Process

The results of the English Placement Process or a valid English Enrollment Authorization Form must be on file in order to enroll in English 21, 28, English 82, 84 - 87, or English 101 and above.

All students planning to enroll in an English course for the first time are expected to complete the English placement process at the Pierce College Assessment Center (Student Services Building). Please visit the Assessment Center website for sample tests and appointment information. Placement results or prerequisite courses taken at other colleges may be presented to the Assessment Center to be substituted for the Pierce English Placement process.

Upon completing the process, students are advised of their placement and given an authorization to enroll in that course. Students seeking an explanation of their scores or authorization to enroll in a course other than that in which they have been placed must meet with an English Department advisor.

Students need to provide evidence of prerequisite completion either through coursework in the Los Angeles Community College District, by completing the Pierce College English Placement process, or through transcripts from other schools presented at the Counseling Office.

Mathematics Placement Process

All students who have not completed a college mathematics course are expected to complete the Mathematics placement process at the Pierce College Assessment Center located in the Student Services Building. Please visit the Assessment Center website for sample tests and appointment information. Review is essential because an improper placement can impede your progress towards your Pierce College goals.

Placement tests are given at four levels: Algebra Readiness, Elementary Algebra, Intermediate Algebra, and Pre-calculus. Upon completing the test, students are advised of their placement and given an authorization to enroll in that course. Students who wish to challenge the recommendation of the assessment test should consult a Mathematics Department advisor.

All sample tests can be downloaded from the internet, including English, Math and Chemistry exams, at www.piercecollege.edu/offices/assessment_center/.

Adding Classes

To add a class that's closed during registration, contact the instructor of the class at the time the class is scheduled to meet. Students accepted by the instructor will be given an Add Permit. Take the Add Permit to the Admissions and Records Office for processing. The deadline to add classes is June 24. Please be prepared to pay any additional fees when adding classes.

Pierce College does not utilize a wait list system. The system allows students to enroll in a course through the online registration portal, on a first-come first-served basis, the moment a seat becomes available in the course due to a student dropping out. This option, however, is only available until the day before classes begin. After that, interested students will need to attend the first day of class and the instructor will give them a signed add card should there be room in the class to add the student.

Cancelled Classes

Due to budget limitations some courses listed in this schedule may be cancelled. If a class has been cancelled you will be notified on the internet system when you attempt to register. If a class is cancelled after you have enrolled, you will be notified by email.

Auditing

Students may be permitted to audit a class for no credit with no grade under the following conditions:

1. Payment of a fee of \$15 per unit. Students enrolled in classes to receive credit for ten or more semester units in the current semester shall not be charged a fee to audit three or fewer semester units per semester.
2. No student auditing a course shall be permitted to change his or her enrollment in that course to receive credit for the course.
3. Priority in class enrollment shall be given to students desiring to take the course for credit.
4. There is no refund of audit fees except when the class is cancelled.
5. Auditing fees are not transferable.
6. Financial Aid will not pay for auditing.
7. Audit fees are not waived for concurrently enrolled high school students.

The last day to submit an Audit Card is **June 24**.

Basic Skills Enrollment Limitation

Title 5, California Code of Regulations, limits student from taking more than 30 units of "remedial" course work, which is defined as "non de-gree-applicable basic skills courses." Effective Winter 2010, the college's registration system will prevent students, who have exceeded this limit, from enrolling in additional basic skills courses. However a student, who has reached this limit but enrolls in a credit or noncredit English as a Second Language (ESL) course, will be allowed to enroll in additional basic skills courses. Students with disabilities may request an exemption through the Disabled Student Programs and Services (DSPS) Office. Also, this limitation does not apply to enrollment in noncredit basic skills courses.
